Sterling Capital Management LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Sterling Capital Management LLC has been independently verified for the periods 01/01/01 to 12/31/18. The verification report(s) is/are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm’s policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

Notes:

1. Sterling Capital Management LLC (SCM) is a registered investment advisor with the SEC. Registration does not imply a certain level of skill or training. Sterling manages a variety of equity, fixed income and balanced assets. Prior to January 2001, Sterling was a wholly owned subsidiary of United Asset Management (UAM). In January 2001, Sterling Capital Management LLC purchased all the assets and business of Sterling Capital Management Company from UAM to become an employee owned firm. In April 2005, BB&T Corporation purchased a majority equity ownership stake in Sterling Capital Management LLC. In October 2010, the management group of Sterling Capital entered into an agreement with BB&T Corporation that reduced and restructured management’s interest in Sterling Capital Management. Additionally, BB&T Asset Management merged into Sterling Capital Management. In January 2013, CHOICE Asset Management firm merged into Sterling Capital Management. “Percent of Firm Assets” and “Total Firm Assets” prior to 2013 are for CHOICE Asset Management. In August 2015, eight new employees joined Sterling Capital management via Stratton Management Company following the close of BB&T’s purchase of Susquehanna Bancshares. In December 2019, BB&T Corporation and SunTrust Banks, Inc. Holding Company merged as equals to form Truist Financial Corporation. Sterling Capital Management LLC is a wholly owned subsidiary of Truist Financial Corporation.
2. In March 2016, Charles J. Wittmann, CFA, became the portfolio manager with the retirement of Guy W. Ford, CFA. Guy W. Ford, CFA, managed the portfolio from January 2012 to March 2016, succeeding George F. Shipp, CFA, who had managed the portfolio since inception. No alterations of composites, as presented herein, have occurred due to changes in personnel or other reasons at any time.
3. Inception date of composite: December 31, 2000. Creation date: December 31, 2000. Effective 1/1/2016, the composite was renamed from “Leaders” to “Global Leaders.” The appropriate benchmark index is the S&P 500 from inception to 12/31/2015 and the MSCI World Net index from 1/1/2016 forward. The MSCI World Index is a broad global equity benchmark that is rebalanced quarterly, and represents large and mid-cap equity performance across 23 developed markets countries. The MSCI World index covers approximately 85% of the free float-adjusted market capitalization in each country, and does not offer exposure to emerging markets. The S&P 500 is an unmanaged, weighted index of 500 stocks providing a broad indicator of price movements. Total return includes price appreciation/depreciation and income as a percent of the original investment.
4. Performance reflects reinvested interest income and dividends and realized and unrealized capital gains and losses. All portfolios are valued monthly as of calendar month-end and utilize trade-date and accrued income accounting. Valuations and performance are reported in US dollars. Portfolio returns are calculated monthly using the Modified Dietz method. Portfolios are revalued for cash flows greater than 10%. Composite returns are calculated by weighting the individual portfolio returns using beginning of period market value plus weighted cash flows. Periodic time weighted returns are geometrically linked.
5. “Pure” gross of fees returns do not reflect the deduction of any fees including trading costs. The net of fee return reflects the actual SMA fee of the individual account. The SMA fee includes all charges for trading costs, portfolio management, custody, administrative fees, and foreign withholding taxes. Sterling’s actual management fees are 32 basis points annually.
6. The annual composite dispersion presented is measured by an asset-weighted standard deviation calculation method of all portfolios in the composite for the entire year. It is not meaningful when there are less than six portfolios in the composite for the entire year. The three year annualized standard deviation measures the variability of the composite and benchmark returns over the preceding 36 month period. It is not required to be presented for annual periods prior to 2011 or when a full three years of composite performance is not yet available.
7. The performance presented represents past performance and is no guarantee of future results. Stock market conditions vary from year to year and can result in a decline in market value due to material market or economic conditions.
