

STERLING CAPITAL

- \$58 Billion in Assets Under Management
- 132 Professionals Providing Investment Management and Client Service
- Strong Partnership with BB&T now Truist

EQUITY OPPORTUNITIES TEAM

- Portfolio Manager: George F. Shipp, CFA®
- Exceptional Continuity of Professionals on Team
- Average Investment Experience of 20 Years
- Based in Virginia Beach, Virginia

PHILOSOPHY

Seek Long-Term Appreciation by Identifying Companies with:

- Above Average Earnings Growth
- Attractive Valuation
- Strong Balance Sheets
- Skilled Management
- Above Average Return on Capital

PROCESS

- Internal Screens and External Sources Used to Identify Investment Candidates
- Team-Based Approach to Fundamental Research
- Valuation Assessed Relative to Historical Range, Industry Peers, Growth Rate, and the Market

STRUCTURE

- All Cap Portfolio Emphasizing Flexibility
- Concentrated Portfolio of 30-35 Securities
- Typically Low Turnover Range of 25% to 45%

*Performance inception date is 12.31.2000.

Data as of 12.31.2019. Index is Russell 3000®. Performance is preliminary and is annualized for periods longer than one year. Net of fees performance returns are presented net of the investment management fees and trading expenses. "Pure" Gross of fees performance returns do not reflect the deduction of any fees including trading costs; a client's return will be reduced by the management fees and other expenses it may incur. Investment management fees are described in Sterling's Form ADV 2A. Performance reflects the reinvestment of interest income and dividends and realized capital gains. The performance presented represents past performance and is no guarantee of future results. Performance is compared to an index, however, the volatility of an index varies greatly and investments cannot be made directly in an index. Market conditions vary from year to year and can result in a decline in market value due to material market or economic conditions. Source: Russell Investments, S&P, FactSet, Sterling Capital Management Analytics. The Performance and Portfolio Characteristics are considered Supplemental Information to the Composite Disclosure Presentation which is attached.

Sterling Capital Management LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Sterling Capital Management LLC has been independently verified for the periods 01/01/01 to 12/31/17. The verification report(s) is/are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

Notes:

1. Sterling Capital Management LLC (SCM) is a registered investment advisor with the SEC. Registration does not imply a certain level of skill or training. Sterling manages a variety of equity, fixed income and balanced assets. Prior to January 2001, Sterling was a wholly owned subsidiary of United Asset Management (UAM). In January 2001, Sterling Capital Management LLC purchased all the assets and business of Sterling Capital Management Company from UAM to become an employee owned firm. There were no changes in personnel. In April 2005, BB&T Corporation purchased a majority equity ownership stake in Sterling Capital Management LLC. There were no changes in personnel. In October 2010, the management group of Sterling Capital entered into an agreement with BB&T Corporation that reduced and restructured management's interest in Sterling Capital Management. Additionally, BB&T Asset Management merged into Sterling Capital Management. There were no material changes in personnel. In January 2013, CHOICE Asset Management firm merged into Sterling Capital Management. There were no changes in personnel. "Percent of Firm Assets" and "Total Firm Assets" prior to 2013 are for CHOICE Asset Management. In August 2015, 8 new employees joined Sterling Capital Management via Stratton Management Company following the close of BB&T's purchase of Susquehanna Bancshares. There were no changes to personnel.
2. George F. Shipp, CFA, has managed the portfolio since inception. No alterations of composites, as presented herein, have occurred due to changes in personnel or other reasons at any time.
3. Inception date of composite: December 31, 2000. Creation date: December 31, 2000. The appropriate index is the Russell 3000 Index which measures the performance of the largest 3,000 US companies, representing approximately 98% of the investable US market. It represents the universe of stocks from which all-cap managers typically select. The index is reconstituted annually. Total return includes price appreciation/depreciation and income as a percent of the original investment. A complete list of all of SCM's composites and their descriptions is available upon request. Policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request.
4. Performance reflects reinvested interest income and dividends and realized and unrealized capital gains and losses. All portfolios are valued monthly as of calendar month-end and utilize trade-date and accrued income accounting. Valuations and performance are reported in US dollars. Portfolio returns are calculated monthly using the Modified Dietz method. Portfolios are revalued for cash flows greater than 10%. Composite returns are calculated monthly by weighting the aggregate SMA/Wrap sponsor returns using beginning of period market values. Periodic time weighted returns are geometrically linked. Returns are not calculated net of non-reclaimable withholding taxes due to immaterial dollar amounts.
5. "Pure" gross of fees returns do not reflect the deduction of any fees including trading costs. The net of fee return reflects the actual SMA fee of the individual portfolios in each platform except for one platform where the maximum fee is deducted from the gross return. The SMA fee includes all charges for trading costs, portfolio management, custody and other administrative fees. The actual fee may vary by size and type of portfolio. Sterling's actual management fees are 50 basis points annually or less.
6. The annual composite dispersion presented is measured by an asset-weighted standard deviation calculation method of all portfolios in the composite for the entire year. The dispersion is not meaningful because less than six portfolios are in the composite. The three year annualized standard deviation measures the variability of the composite and benchmark returns over the preceding 36 month period. It is not required to be presented for annual periods prior to 2011 or when a full three years of composite performance is not yet available.
7. The performance presented represents past performance and is no guarantee of future results. Stock market conditions vary from year to year and can result in a decline in market value due to material market or economic conditions.
